Description of the assignment: Consultancy – Writing of Background Paper on Chad – Socio-Economic Development Thematic Area

Period of assignment/services: 09 November 2015 - 08 December 2015

1. BACKGROUND

The APRM is a self-monitoring mechanism to encourage the adoption of policies, standards and practices that lead to political stability, high economic growth, sustainable development and accelerated regional economic integration through the exchange of experiences and reinforcement of best practices including identifying deficiencies and assessing the needs for capacity building of the participating countries. To date thirty-five Member States of the African Union have voluntarily acceded to the APRM.

The APRM proceeds in five phases:

Phase 1 is a preparatory step at both the national and continental level. During this phase, the national Focal Point establishes the National Governance Commission (NGC) and the sensitisation and awareness campaign begins. Once these prerequisites are in place, the country commences the national self-assessment stage. During this stage, the country is also required to develop a Preliminary National Program of Action (NPOA) to address existing capacity constraints. On its part, the continental APR Secretariat compiles basic information on the country called the *Background Paper* that is used to augment, compare and contrast with the national self-assessment that the country prepares. These three (3) documents namely (i) the self-assessment report on governance, (ii) the preliminary NPOA and (iii) the background paper constitute the basis key issues paper that will be prepared ahead of the country review mission.

The Country Review Mission marks Phase 2 of the process.

Phase 3 is the preparation of the country review report by the review mission that visits the country.

Phase 4 is the submission of the report of the country review mission to the continental APRM Secretariat and the APR Panel for deliberation and recommendations. The Panel submits the country review report and recommendations to the Forum of Heads of State for action. Phase 4 ends with Chairman of the Forum communicating the decisions of Heads of State and Government of the country under peer review.

Phase 5, which is the final stage of the APRM process, involves making public the country review report and actions relating thereto.

The APRM Secretariat therefore seeks assistance in developing the Background Paper on the Republic of Chad for the Socio-Economic Development thematic area. We expect the selected consultant to identify the main "issues" relevant to the field emerging from the research. Best practices identified in this area should also be highlighted.

2. OBJECTIVES OF THE BACKGROUND PAPER ON SOCIO-ECONOMIC DEVELOPMENT

In writing the Background Paper, the Consultant shall follow and be guided by the objectives of the Socio-Economic Development (SED) thematic area, and will raise all relevant issues under each of the objectives.
